|----------------------------|----------------------------|------------------------------|
| * Aquastat (Single Acting) | * Fuel Filter Cartridge    | * Burner Blower Wheel        |
| * Pyrostat                 | * Fuel Filter Gasket       | * Burner Coupling            |
| * Emergency Switch         | * Fuel Pump Strainer       | * Burner Flange & Gasket     |
| * Fuses                    | * Fuel Pump Parts          | * Burner Motor               |
| * Pressuretrol Control     | * Fuel Pump Gasket         | * Delayed Oil Valve          |
| * Pressuretrol Switch      | * Fuel Pump Fittings       | * Delayed Oil Valve Coil     |
| * Thermostat (Manual Only) | * Nozzle                   | * Electrodes/Porcelain       |
| * Blower Belt              | * Nozzle Jet Line          | * Flame Retention Head       |
| * Blower Pulley            | * Oil Fittings             | * Ignition Transformer       |
| * Circulator Coupling      | * Visible Oil Lines        | * Ignition Terminal Parts    |
| * Circulator Motor         | * Primary Safety           | * Burner Pedestal            |
| * Gauge Glass w/washers    | * Cad Cell Relay           | * Step Down Transformer      |
| * Fan Limit Control        | * Cad Cell Eye             | * Slip on Vent Cap           |
| * Check Valve              | * Cad Cell Holder Assembly | * Firematic Valve and Handle |
| * Burner Air Blast Tubes   |                            |                              |

**\*\*All included with our outstanding customer service\*\***

For your convenience Hilltop Energy offers Contracts to be incorporated into your monthly Budget.

**Automatic deliveries are required for contract eligibility.**

**SERVICES & CONDITIONS**

**Service Plans are limited to the Burner & Controls:** Labor is not covered for any work or parts not covered under contract.

**Parts Replacement:** The controls and burner parts listed under plan shall be repaired or replaced at no charge due to normal wear of the heating system. Unavailable or obsolete parts **cannot** be guaranteed.

**Annual Maintenance Service:** Annual Tune-up shall be performed once a year at no charge. This service should be scheduled between April 1st and September 15th. Customers requiring a different time period will be accommodated on a first come, first served basis.

**Annual Maintenance:** Clean boiler/furnace, lubricate motor bearings, adjust burner controls, clean flue pipe and chimney base, check draft and perform combustion efficiency test on unit. Check low water cut off, clean gauge glass and fill water to level. Check filters and blowers on air systems.

**Emergency Service:** Hilltop Energy will provide emergency service as promptly as possible. We can not be liable for any delay or failure to supply service or materials due to conditions beyond our control.

**CONTRACT GUIDELINES:**

**Hilltop Energy reserves the right to terminate the service contract without notice for the following:**

- \* Failure to maintain a satisfactory credit rating, or if account is 30 days past due.
- \* Any unauthorized person other than a qualified Hilltop technician attempting to repair equipment.
- \* Failure to repair, replace or clean components which are necessary for normal operation of system.
- \* If this contract is terminated for any of the above reasons, standard rates for parts and service will apply for the duration of contract. Customers are required to send a written letter within seven (7) business days from the desired cancellation date. Customer will remain liable for service or oil deliveries if cancellation letter is not received.

**Service plans do not cover the cost of labor & materials for:** flushing boilers, draining or bleeding systems or for damage caused by by fire or water which may affect the normal operation of the equipment. Hilltop Energy assumes no responsibility for thermostats set above or below room temperature, switches turned off, circuit breakers off/tripped, limits set too low or failure to maintain proper water level. Hilltop Energy assumes no responsibility for heating failure when building is unoccupied or for running out of fuel due to customers neglect. This includes being on "call before delivery" status without customer response or account in 30-day non-payment credit hold. ***Steam low water cut-offs must be flushed, drained and checked weekly.***

Hilltop Energy will not cover costs from burner shut down due to poor tank conditions, insufficient combustion air or chimney failure.
